The City of Bloomington Illinois Recognizes The Need For Efficient Workers' Compensation Claim Services

Nashville, Tennessee (August 26, 2009) – Alternative Service Concepts (ASC), a full-service, workers' compensation and property & casualty third party claims administrator, announced that the City of Bloomington has chosen ASC to administer its workers' compensation and property & casualty claim programs effective immediately.

"The City's request for immediate assumption of claims administration fits perfectly with our dedicated unit philosophy," said Mr. Robert Bennett, CEO of ASC. "When we establish a dedicated claims unit, we immediately select claims professionals who are assigned exclusively to the management of that one account while quickly converting prior claims data accurately and efficiently," Mr. Bennett commented. "ASC is extremely proud to be recognized and chosen by the City of Bloomington, and we are honored to have them as our client."

ASC's overall goal for providing exceptional workers' compensation and property & casualty claims administration to the City of Bloomington is direct day-to-day involvement with the client on-site. ASC's service solution will enable the claim adjusters to attend staff meetings, participate in board meetings, work with loss control and safety consultants, and interface directly with City employees.

Mike Nugent, President of Nugent Consulting Group, recognized ASC as the right choice for the City of Bloomington. "The City learned that its current claims administrator was closing its doors, and ASC was able to put an adjusting team on-site to take over claims management a week later." said Mr. Nugent. "ASC's senior management was very involved in the transition and the smoothness of the transition exceeded our expectations."
