Secondary School Cooperative Risk Management Program Selects ASC for Claims Administration

Nashville, Tennessee (April 1, 2011) – Alternative Service Concepts, LLC (ASC), a full-service, workers' compensation and property & casualty third party claims administrator, announced that the Secondary School Cooperative Risk Management Program (SSCRMP) of Arlington Heights, Illinois has chosen ASC to administer its Liability, Property, and Workers' Compensation claim programs. ASC's dedicated, on-site staffing model will conduct timely and comprehensive reviews on all liability and workers' compensation claims.

Comprised of four School Districts across the north and northwest suburbs of Chicago, SSCRMP's goal for a pool was to provide more comprehensive insurance coverage at a lower cost than school districts could obtain individually. Formed in 1989, SSCRMP's program includes: property insurance, general liability insurance, auto (transportation) insurance, school board legal insurance, crime insurance, boiler insurance and foreign travel insurance.

"ASC's dedicated, on-site relationship will be designed so that SSCRMP personnel have immediate access for all claim file reviews, adjuster rapport, and training," said Mr. Robert Bennett, CEO of ASC. "We are very excited to represent SSCRMP with our dedicated, on-site claim adjusting business model."

Mr. Mike Nugent, SSCRMP Pool Administrator stated, "I have been researching alternative models to better manage our member's workplace injuries; the model ASC proposed met all of our objectives. He continued, "We are now able to integrate our nurse triage service with our adjuster and safety director making for a much more efficient process, and we believe, much lower workers compensation costs."

ASC's function as a dedicated claims unit is to reduce SSCRMP's possible exposure by carefully investigating and coding claims for loss information including bodily injury, personal injury and property damage.
